

# Emergency Preparedness and Disaster Recovery: Who's chart ready?

**Date:** Saturday, October 5, 2019

**Time:** 10:00 am – 12:30 pm

**Location:** Shasta College Downtown Campus  
Health Sciences Building Room 8220 (2<sup>nd</sup> Floor)  
1400 Market St.  
Redding, California 96001

## Program Description

Over the last few years, disasters and hazards have struck the state of California, from devastating wildfires, earthquakes, flooding and even active shooters.

As healthcare professionals continue to move forward with the digitization of patient health information, many initiatives have focused on how ePHI and paper records can be used during a disaster or emergency to ensure safe patient care.

Do YOU know what to do? Are YOU Chart Ready?

## Presenter

Esther Tolentino BA, RHIT, CPHI, CHTS-IS, CHTS-PW  
- Esther is currently the HIM Director-Technology for Cerner RevWorks. She has 25+ years of HIM experience in various HIM operational and leadership roles as well as 7 years of HIT experience building, testing, deploying and supporting enterprise-wide EMR projects across 4 states. She is also currently a Doctoral student with Purdue University in the Health Law program.
